La Follette's

WEEKLY MAGAZINE

THE GREAT PROGRESSIVE WEEKLY

There are many reasons why you should read what it says 52 times each year. It is free to tell the truth. It will oppose the encroachment of special privileges upon the people's rights. It will call the roll on public men and measures and inform you how your congressmen work and vote. It will criticize the executive branch of government from the highest to the lowest, if in its judgment the people's interests are not protected. It will spread the gospel of ideal home life through the Women's Department. It will be conservative when good things are to be conserved, and radical when bad things are to be exposed.

WHAT NEXT?

Six months teaching in the public schools at a salary of \$60 per month is \$360 a year. \$360 divided by 12 months gives a salary of \$30 per month. \$15 off for board leaves a net salary of \$15 a month—less than the wages of a common laborer, who has not spent a cent in preparation for his job. \$50 per month for 12 months is offered. Who makes this bid for your time? We answer the Commercial World. You are needed in business, will you accept the highest salary, \$60 per month 12 months in the year? Deduct \$15 for board, and you have a salary of \$45 clear, as compared with \$15 net salary at teaching. Net salary for the teacher's 12 months work at \$15 per month, \$180. Net salary for the office man 12 months at \$45 per month, \$540, a net gain for the office man of \$360 per year. How can this difference in salary be secured? The answer to this question has been found by thousands who have completed a course in Bookkeeping and Shorthand in the Moberly Commercial College of Moberly, Mo., and are now enjoying salaries for in excess of the figures named above. The business world makes the highest bid for your brains; it's up to you.

Write for catalog and ask about special inducements for teachers. The Moberly Commercial College, as you are perhaps aware, is the best and most favorably known commercial school in the section. It the merits of the famous Byrne systems which the school controls that has placed it so far in the lead. It is now securing positions for every graduate of Bookkeeping and Shorthand.

Mr. and Mrs. J. A. Woolf, of Ely visited their daughter, Mrs. George Foley and family, Friday.

Several pair good 3 and 4 year old mules for sale.—HARRY A. MCCLINTIC. 3-24

Misses Blanche and Myrtle Couch of Hunnewell attended Mrs. M. A.

Native Lumber. I have a saw-mill on my farm (known as the John Cleary farm) in Ralls County, and am opening up one of the best tracts of timber in Northeast Missouri. Anyone wishing lumber soon should send their bills to me now while cutting logs to length. A. S. JAYNE, Monroe City, Mo.

H. E. Clark, The Up-To-Date Auctioneer. Special attention given all sales. All I ask is give me a trial. Headquarters at Democrat office.

Annual School Election.

Notice is hereby given to the qualified voters of School District of the City of Monroe, Township (56) Range 7 and 8, Counties of Monroe, Marion and Ralls, State of Missouri, that the annual School Election of said district shall be held at the same time and place as the election of municipal officers. The following will be proposed: The election of two directors for a term of three years to fill vacancies caused by the expiration of term of office of Dr. Thomas Proctor and W. E. Shearman.

This 2nd day of March 1910.

3-24 H. J. KENT, Clerk.

Free Seed Corn.

Why not quit raising "scrub" corn? Why not plant enough pure bred seed this spring to supply you for the future? There is as much difference between "scrub" corn and pure bred corn as there is between a "scrub" steer and a pure bred steer. Pure bred corn will produce a much larger yield per acre than ordinary seed. Until further notice the Farmer and Breeder, published at Columbia, Mo., will give away free a quart of pure bred corn with every new subscription. A quart will plant a quarter of an acre and give you all the pure seed you need for future use. The Farmer and Breeder is a big monthly and costs only 50c per year. It is published in the home of Missouri's great Agricultural College and every issue is full of articles by Agricultural experts on the raising of all kinds of Farm Crops, the Care and Feeding of Live Stock, Dairying, Fruit Growing, Fertilizing the Soil, Poultry Raising and every other farm subject. Any single issue is worth the price. Every ounce of this seed corn will be tested by seed experts before it is sent out. You can have either a yellow or white variety. This advertisement is appearing in hundreds of newspapers and our supply of seed will soon be exhausted. So send or leave your subscription at once at the office of the Monroe City Democrat, which will forward it to us. tf

Personally Conducted Landseekers' Excursions

at very low round trip railroad rates to the

Big Horn Basin, Wyoming

on April 5 and 19 and May 3, leaving Kansas City 10:30 A. M. and Omaha 4:10 P. M.

I will personally conduct these excursions to assist prospective settlers in locating on Government irrigated homesteads, or getting irrigated land from the state under the Carey Act, or putting them in touch with special bargains for deeded irrigated lands. Long time payments, no interest from the Government, low rate of interest where lands are bought from irrigation companies or individuals.

Just think of \$3,000.00 worth of potatoes on 10 acres; of \$10,000.00 worth of sugar beets raised on 115 acres, \$900.00 worth of onions on less than an acre; of twenty-seven cantaloupes on one vine, and more than a peck of choice, ripe tomatoes on one vine; of 126 bushels of oats and 60 bushels of wheat per acre; of clusters of apples on five-year-old trees so thick that the branches would break, were they not propped up, and added to this, the most beautiful, healthful climate.

New folder free, containing complete information with large map, sent free upon request.
